

Moderation Meetings

In your teacher assessments and moderation meetings you have to develop subjective interpretations of the standards your pupils achieve and seek assurance that your judgements are sufficiently in line with what is expected in other schools and by public bodies. This is in order that your pupils are treated fairly.

The moderation meetings held aim to support staff in doing this confidently and range across the school from EYFS to year 6. Our trust includes lead moderators for English and Maths and used to inform of developments across our groups. Our current programme includes:
