# TRAINING HUB UPDATE

Last week was an incredibly busy week for our Training Hub facilitators working on various programmes. Two of these included leading a new NPQ cohort on leading teaching as well as another round of Team Teach - our positive behaviour and de-escalation training. It's great to have such knowledgeable and supportive facilitators leading key programmes across our trust and borough wide. The kick off conference for Ambition's NPQLT with our delivery partner London District East was an excellent day and we wish the participants well as they embark on their CPD journey. Our Team Teach day allowed us to explore many positive behaviour strategies and equipped our participants with new knowledge and skills to apply in their practice.
