achieving for all*

Turkey- Syria Eathquake

On 6th of Feburuary we all saw the devistating news of the earthquake that struck in Turkey and Syria. The impact on so many lives and the needs of those in the area really had an impact on our communities.

It is very hard to imagine how hard this must be for the survivors. However, as always, we as a community wanted to help. Each of our schools flew into action to raise money to help.

Even at a time of increased cost of living pressures and struggles, our communities showed their generosity and we have raised an amazing **£2,500!**

We are so lucky to have such amazing communities to work with! Thankyou to everyone.

"Working together achieving for all."
