Prof Ludovica Serratrice
University of Reading, School of Psychology and Clinical Language Sciences
Professor of Bi-Multilingualism, Director of the Centre for Literacy and Multilingualism

We believe that promoting a multilingual approach provides schools with an asset based approach to languages and puts languages at the forefront of education. Believing that all languages have a place in education will create a space that is linguistically and culturally inclusive for all.

Our vision is to create a platform at the Multilingual Hub to bridge the gap between Academia and Practitioners for Multilingualism. Creating a space where educators can learn more about current research in Multilingualism and see examples of best practice in Multilingualism.

"A place everyone loves to be"

All sessions will be held at Kensington Primary School Manor Park E12 6NN

Multilingual Training Hub
